## MSDS Statement / Declaration

Applied Coatings International LLC has not prepared a Material Safety Data Sheet (MSDS) for its FLX-Paint graphic films; they are defined as Articles, in accordance with Occupational Safety and Health Administration's Hazard Communication Standard (29 CFR 1910.1200

(b)(6)(v)):

"Article" means a manufactured item other than a fluid or particle:  
(i) which is formed to a specific shape or design during manufacture;  
(ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical, and which does not pose a physical hazard or health risk to employees.

When used under reasonable conditions and in accordance with the ACI's directions for use, the products should not present a health and safety hazard. However, use or processing of the product in a manner not in accordance with the directions for use may affect its performance and present potential health and safety hazards.
